Education

University of Florida (UF) - Gainesville, FL

May 2027

Bachelor of Science in Computer Science

- Relevant Coursework: Applications of Discrete Structures, Data Structures and Algorithms, Digital Image Processing

Skills

Languages: C++, Python, HTML, CSS, JS

GIS Software: ArcMap, ArcGIS Pro, ArcGIS StoryMaps

Experience

Hurricane and Tornado Research | Undergraduate Researcher

August 2024 - Current

- Working alongside Dr. Agdas and Dr. Prevatt, focusing on identifying housing demographics, architectural shapes, and other structural characteristics linked to wind and storm surge damage
- Supports the development of machine learning and AI frameworks for predicting losses, validating damage/loss models, and estimating the overall financial impact of hurricanes.
- Responsibilities include collecting data from public records, conducting statistical analyses using MATLAB and Python, and presenting findings.

UF Machine Intelligence Lab | Software Engineer

August 2024 - Current

- Collaborated with a team of engineers to design and develop software for NaviGator AMS, an autonomous maritime vehicle built on a WAM-V platform, for the Maritime RobotX competition.
- Contributed to coding and implementing navigation and control systems, enhancing the vehicle's autonomous capabilities for competition scenarios.

Projects

CostCompass | GIS, Google Maps API, U.S. Census API, OpenAI API

September 2024

- Designed a GIS-powered platform integrating Google Maps API, U.S. Census API, and OpenAI API to provide real-time cost-of-living insights for informed relocation decisions.
- Addressed data compatibility challenges by optimizing API integration and ensured seamless functionality for interactive cost analysis tools.

Pantry Management | Next.js, React, Firebase, GCP, Vercel

July 2024

- Dynamic inventory management tool that allows users to seamlessly manage and search through a list of items. Users can add new items to the inventory, adjust the quantity of existing items, and remove items when necessary.

Leadership/Extracurricular

Filipino Student Association (FSA)

August 2023 - Current

Mass Communications Chair

June 2024 - Current

- Assist in making flyers and/or banners for meetings and events. Make the Barkada, presentation slides, and emcee script for each general body meeting.
- Manage social media platforms and create graphics to deliver information, updates, and upcoming events.

Web Intern and Committee Member

August 2023 - June 2024

- Collaborated with other interns in delivering a user-friendly and informative website using HTML, CSS, and JS.
- Contributed to the planning and execution of decorations for multiple cultural events.
